

FRAGO Lane # 10, Move Tactically.

Read to Squad Leader: "You are 1st Squad, 2nd Platoon, your current location is UK54027510"

1. SITUATION:

All A Co. Squads have completed successful missions against the AKMB. However, all reconnaissance and harassment squads have not been eliminated. A squad-plus sized element is moving toward your TAA from the South and the 1SG does not have enough support personnel in proper fighting positions to disrupt or repulse their possible attack. The Company Commander is calling you back to the TAA in order to provide a QRF for the eminent attack. Your purpose is to swiftly and tactically return to the TAA.

2. MISSION:

2nd Plt, A Company destroys enemy in AO Black to limit enemy forces vic. Grid UK53997464 NLT (H+1) (DTG) IOT prevent enemy infiltration of the company TAA.

3. EXECUTION:

a. Concept of the Operation:

The purpose of this operation is to deny enemy control of critical LOCs and key intersections within the Company area of operations. We will accomplish this mission by engaging insurgent force concentrations around AO Black. Decisive to this operation is the destruction of Enemy surveillance and support positions in the company AO. This is decisive because it will allow US forces to control logistics, information, and tactical LOCs in AO Black. One Squad (SE1) will conduct reconnaissance of MSR Jahnke and Hoffalah village IOT identify enemy positions and OPs in the AO. Another Squad (SE2) will conduct ambush of all enemy (mounted or dismounted) near the intersection of MSR Jahnke and Rt. Cummins IOT prevent enemy reinforcements against PLT ME. Another Squad (ME) will provide Company QRF element in order to prevent the enemy from infiltrating our AO. Purpose of mortar fires is to suppress Enemy Forces during Enemy raids or ambushes. Artillery fires will be controlled by Brigade. **Endstate: Enemy elements destroyed or withdrawn from Zone. Platoon is prepared to reinforce Company main effort (ME).**

1. Maneuver:

- a. 1st Squad (ME) returns to TAA vic. Grid UK53997464 NLT (H+1) (DTG) IOT provide Company QRF and prevent the enemy from infiltrating our AO.**
- b. 2nd SQD (SE2) conducts ambush of enemy patrols vic. grid UK53187481 NLT (H+1) (DTG) IOT prevent enemy reinforcements against PLT ME.**
- c. 3rd SQD (SE1) conducts reconnaissance of MSR Jahnke and Hoffalah village vic. grid UK53087465 NLT (H+1) (DTG) IOT identify enemy positions and OPs in the AO.**

2. Fires:

- a. Mortar Fires will 60mm; Artillery Fires 105mm. Priority goes to 3rd Squad, then to 2nd, then 1st Squad.**

b. Tasks to Maneuver Units:

1st Squad:

- 1. Identify most direct route of travel to TAA**
- 2. Move in rapid but tactical manner.**
- 3. Identify compass, pace count, and flank/rear security personnel.**

2nd Squad:

1. Conduct Recon of Rt Jahnke west and north of TAA
2. Identify alternative MSR's North of TAA and Rt. Cummins
3. Send intelligence to higher using SALUTE format.

3rd Squad:

1. Identify suspected cache pts/operations routes/enemy supporters in Hoffalah village.
2. Identify Obstacles enroute to Hoffalah village.
3. Identify Alternate MEDEVAC site near Hoffalah village.

c. Task To Combat Support Units: No Change

d. Coordinating Instructions: No Change

4. SERVICE SUPPORT: No Change

5. COMMAND & SIGNAL:
